The Division of Prevention and Behavioral Health Services (DPBHS) issues policies and procedures to identify and/or clarify the Division's philosophy, structure, procedures and/or operations in order to set standards for performance. These policies and procedures will comply with state, federal and professional mandates and guidelines, establishing clear lines of accountability that support reasoned and effective decision-making at all levels to provide for safe and high quality services.

Since staff at all levels of the organization are responsible for the quality of services provided by DPBHS, any individual may suggest a policy to be developed or recommend a revision of policy. These suggestions must be made first through the supervisor and upward through the appropriate chain of authority to the Director of the Division and/or his/her designee(s).
